Publication Date: March 13, 2012

The PUCO produces the *Apples to Apples* charts to provide consumers with a snapshot comparison of current natural gas supplier price options and contract terms for individual customers. You may also want to check with your local government to see if your community has grouped together citizens into a buying pool to purchase gas. The PUCO updates the charts on a weekly basis and verifies each supplier offer to ensure accuracy. As with all contracts, consumers should carefully read and understand all terms and conditions before signing any forms or agreeing to enroll with a supplier for natural gas service. For a description of *Apples to Apples* chart-related terms, please refer to **Chart Definitions** that follows the **Supplier Plans, Rates, Terms and Conditions** section.

The PUCO provides the tools you need to calculate your estimated cost. The **Self-Calculation Worksheet** that follows **Chart Definitions** walks you through the steps needed to manually calculate your own estimated cost. You can also visit [www.puco.ohio.gov](http://www.puco.ohio.gov) and click on the **Apples to Apples** link to access the **Apples to Apples Interactive Calculator** and automatically calculate your estimated costs.

## Chart Definitions

**Ccf:** One hundred cubic feet; a unit used to measure natural gas usage.

**Contract Term:** The length or duration of the contract (i.e. monthly, yearly, multiple-year).

**County Sales Tax:** When natural gas is purchased from a supplier, the natural gas is subject to Ohio sales or use tax. Because county sales tax rates vary throughout Ohio, the county sales tax is not included in the supplier's total rate. Use the attached map to determine your county's sales tax rate.

**Current Offer:** Comprised of suppliers' current commodity options and base rates, exclusive of sales tax, the local utility transportation charge, and customer service charges. Commodity options may be a fixed, variable, or stable rate plan.

**Fixed Rate Plan:** A constant rate for the contracted period.

**Gross Receipts Tax:** When natural gas is purchased from a local utility, it is not subject to Ohio sales or use tax. The local utility must pay a gross receipts excise tax which is applied to the combined Monthly Customer and Riser Surcharge Charges and on the GCR and Transportation rates charged

**Standard Service Offer (SSO):** A monthly variable rate and represents cost associated with the securing gas for CGO customers. The rate is based on the New York Mercantile Exchange month-end settlement price, plus a Retail Price Adjustment of \$0.188 per ccf.

**Stable Rate Plan:** A variable rate for a fixed period of time.

**Supplier Name:** PUCO-certified suppliers that are actively enrolling new customers.

**Supplier Total Rate:** Comprised of the supplier's natural gas commodity prices, plus the LDC transportation rate charge.

**Transportation Rate Charge:** The transportation rate charge, which can fluctuate quarterly, is comprised of a base rate, Percentage of Income Payment Plan rider, excise tax rider, uncollectible expense rider, Choice program sharing credit and a gross receipts tax.

**Variable Rate Plan:** A fluctuating rate within the contracted period.
