## 1.0 DEFINITIONS

For the purpose of this tariff, the following definitions will apply:

Access Services: The Company's intrastate telephone services offered pursuant to this tariff.

Access Service Request ("ASR"): The written request for access services executed by the Customer and the Company in the format devised by the Company. The signing of an ASR by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date. Should a Customer use the Company's access service without an executed ASR, the Company will then request the Customer to submit one.

Account Codes: Permits Centrex Stations and attendants to dial an account code number of up to eight digits. For use when placing calls over facilities arranged for Automatic Message Accounting (AMA) recording. The account or project number must be input prior to dialing the called number.

Alternative Operator Services: Alternative Operator Services are those services provided by the carrier in which the customer and the end user are totally separate entities. The carrier contracts with the customer to provide the alternative operator services; however, the carrier does not directly contract with the end user to provide the services even though it is the end user who actually pays for the processing of the operator assisted calls.

Automatic Number Identification ("ANI"): Allows the automatic transmission of a caller's billing account telephone number to a local exchange company, interexchange carrier or a third party subscriber. The primary purpose of ANI is to allow for billing of toll calls.

This service is offered to the extent facilities are available and where the Company and the Customer jointly arrange for the establishment of dedicated access facilities connecting the Customer's trunk-compatible PBX or other suitable equipment to the Company's POP. The Customer shall be responsible for all costs and charges associated with the dedicated access facilities.

---

**1.0 DEFINITIONS** (cont'd)

Exchange Telephone Company or Telephone Company: Denotes any individual, partnership, association, joint-stock company, trust, or corporation authorized by the appropriate regulatory bodies to engaged in providing public switched communication service throughout an exchange area, and between exchange areas within the LATA.

In-Only: A service attribute that restricts outward dial access and routes incoming calls to a designated answer point.

Interconnection: Local traffic exchange provides the ability for another local exchange provider to terminate local traffic on the Company's network. In order to qualify for local traffic exchange, the call must be originated by an end user of a company that is authorized by the Public Utilities Commission of Ohio to provide local exchange service. **2.1 Undertaking of the Company** (cont'd)

**2.1.7 Non-routine Installation**

The Company does not impose an installation charge in connection with routine installations completed during regular business hours and in non-hazardous locations. At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

**2.1.8 Special Construction**

Subject to the agreement of the Company and to all of the regulations contained in this tariff, special construction of facilities may be undertaken on a reasonable efforts basis at the request of the Customer. Special construction is construction undertaken:

- A) where facilities are not presently available, and there is no other requirement for the facilities so constructed;
- B) of a type other than that which the Company would normally utilize in the furnishing of its services;
- C) over a route other than that which the Company would normally utilize in the furnishing of its services;
- D) in a quantity greater than that which the Company would normally construct;

**2.2 Prohibited Uses** (cont'd)

**2.2.4** A Customer, joint user, or authorized user may not assign, or transfer in any manner, the service or any rights associated with the service without the written consent of the Company. The Company will permit a Customer to transfer its existing service to another entity if the existing Customer has paid all charges owed to the Company for regulated communications services. Such a transfer will be treated as a disconnection of existing service and installation of new service..

**2.3 Obligations of the Customer**

**2.3.1 General**

All telephone companies are subject to the commission's rules for minimum telephone service standards (MTSS) found in chapter 4901:1-5 of the Administrative Code. Customers have certain rights and responsibilities under the Minimum Telephone Service Standards. These safeguards can be found in the Appendix to Ohio Adm. Code 4901:1-5-03, which is entitled "Telephone Customer Rights and Responsibilities." These rights and responsibilities include complaint handling, ordering or changing service, service repair, payment of bills, and disconnection and reconnection of service.

N

The Customer shall be responsible for:

- A) the payment of all applicable charges pursuant to this tariff;
- B) damage to or loss of the Company's facilities or equipment caused by the acts or omissions of the Customer; or the noncompliance by the Customer, with these regulations; or by fire or theft or other casualty on the Customer Premises, unless caused by the negligence or willful misconduct of the employees or agents of the Company;
- C) providing at no charge, as specified from time to time by the Company, any needed equipment, space and power to operate Company facilities and equipment installed on the premises of the Customer, and the level of heating and air conditioning necessary to maintain the proper operating environment on such premises;

Any and all costs associated with the obtaining and maintaining the rights-of-way described herein, including the costs of altering the structure to permit installation of the Company provided facilities, shall be borne entirely by, or may be charged by the Company to the Customer. The Company may require the Customer to demonstrate its compliance with this section prior to accepting an order for service.
  
- E)     providing a safe place to work and complying with all laws and regulations regarding the working conditions on the premises at which Company employees and agents shall be installing or maintaining the Company's facilities and equipment. The Customer may be required to install and maintain Company facilities and equipment within a hazardous area if, in the Company's opinion, injury or damage to the Company employees or property might result from installation or maintenance by the Company. The Customer shall be responsible for identifying, monitoring, removing and disposing of any hazardous material (e.g., friable asbestos) prior to any construction or installation work;

**2.3**     **Obligations of the Customer** (cont'd)

**2.3.1**   **General** (cont'd)

- F)     complying with all laws and regulations applicable to, and obtaining all consents, approvals, licenses and permits as may be required with respect to, the location of Company facilities and equipment in any Customer premises or the rights-of-way for which Customer is responsible under Section 2.3.1(D); and granting or obtaining permission for Company agents or employees to enter the premises of the Customer at any time for the purpose of installing, inspecting, maintaining, repairing, or upon termination of service as stated herein, removing the facilities or equipment of the Company;
  
- G)     not creating or allowing to be placed any liens or other encumbrances on the Company's equipment or facilities; and
  
- H)     making Company facilities and equipment available periodically for maintenance purposes at a time agreeable to both the Company and the Customer. No allowance will be made for the period during which service is interrupted for such purposes.

**2.3.2**   **Liability of the Customer**

- A)     The Customer will be liable for damages to the facilities of the Company and for all incidental and consequential damages caused by the negligent or intentional acts or omissions of the Customer, its officers, employees, agents, invites, or contractors where such acts or omissions are not the direct result of the Company's negligence or intentional misconduct.

---

**2.0**     **REGULATIONS** (cont'd)

**2.3**     **Obligations of the Customer** (cont'd)

**2.3.2**   **Liability of the Customer** (cont'd)

- B)       To the extent caused by any negligent or intentional act of the Customer as described in (A), preceding, the Customer shall indemnify, defend and hold harmless the Company from and against all claims, actions, damages, liabilities, costs and expenses, including reasonable attorneys' fees, for (1) any loss, destruction or damage to property of any third party, and (2) any liability incurred by the Company to any third party pursuant to this or any other tariff of the Company, or otherwise, for any interruption of, interference to, or other defect in any service provided by the Company to such third party.
  
- C)       The Customer shall not assert any claim against any other Customer or user of the Company's services for damages resulting in whole or in part from or arising in connection with the furnishing of service under this tariff including but not limited to mistakes, omissions, interruptions, delays, errors or other defects or misrepresentations, whether or not such other Customer or user contributed in any way to the occurrence of the damages, unless such damages were caused solely by the negligent or intentional act or omission of the other Customer or user and not by any act or omission of the Company. Nothing in this tariff is intended either to limit or to expand Customer's right to assert any claims against third parties for damages of any nature other than those described in the preceding sentence.
  
- D)       Approval of the above tariff language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the Carrier should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

**2.0 REGULATIONS** (cont'd)

**2.4 Customer Equipment and Channels**

**2.4.1 General**

An accepted credit card is any credit card that a cardholder has requested or applied for and received, or has signed, used, or authorized another person to use to obtain credit. Any credit card issued as an renewal or substitute in accordance with this paragraph is an accepted credit card when received by the cardholder.

### **3.0 APPLICATION OF RATES**

#### **3.1 Introduction**

The regulations set forth in this section govern the application of rates for services contained in other sections of this tariff.

#### **3.2 Usage Based Charges**

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 3.2.1** Calls are measured in durational increments identified for each service. All calls which are fractions of a measurement increment are rounded-up to the next whole unit.
- 3.2.2** Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls start with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.
- 3.2.3** Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.
- 3.2.4** Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- 3.2.5** All times refer to local time.

---

**3.0 APPLICATION OF RATES** (cont'd)

**3.3 Rates Based Upon Distance**

Where charges for a service are specified based upon distance, the following rules apply:

**3.3.1** Distance between two points is measured as airline distance between the rate centers of the originating and terminating telephone lines. The rate center is a set of geographic coordinates, as referenced in Local Exchange Routing Guide issued by Bellcore, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated 800 or WATS access line), the Company will apply the rate center of the Customer's main billing telephone number.

**3.3.2** The airline distance between any two rate centers is determined as follows:

- A) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced Bellcore document.
- B) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
- C) Square each difference obtained in step (b) above.
- D) Add the square of the "V" difference and the square of the "H" difference obtained in step C) above.
- E) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.
- F) Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

**3.0**     **APPLICATION OF RATES** (cont'd)

**3.3**     **Rates Based Upon Distance** (cont'd)

**3.3.2**   The airline distance between any two rate centers is determined as follows:
