

APPENDIX A
01-2565-TP-PEX

Dear New Burlington Exchange Subscribers:

A petition was filed with the Public Utilities Commission of Ohio, seeking the institution of two-way, flat-rate, extended area service (EAS) between the New Burlington Exchange of Verizon North Inc. and the Dayton Exchange of Ameritech Ohio (Ameritech). The Commission has ordered that the request for two-way, flat-rate EAS between the New Burlington Exchange and the Dayton Exchange be granted if a substantial majority of the New Burlington Exchange subscribers indicate a willingness to pay appropriate rates for the service. If this request is granted, calling between the New Burlington Exchange and the Dayton Exchange would be toll-free, but increases in the monthly rates for basic service would apply to all telephone subscribers in the New Burlington Exchange.

Shown below are the existing monthly rates for residence and business access lines for the New Burlington Exchange. Shown also are the rates that would take effect upon the establishment of toll-free service, along with the difference in the present and proposed rates.

<u>Type and Class of Service</u>	<u>Present Monthly Rate</u>	<u>Proposed Monthly Rate</u>	<u>Amount of Increase</u>
<u>Flat Rate Service</u>			
<u>Residence:</u>			
One-Party	\$14.58	\$15.73	\$ 1.15
<u>Business</u>			
One-Party	\$29.16	\$35.95	\$ 6.79
Key Trunks	\$52.00	\$52.00	\$ 0.00
Trunks	\$39.00	\$39.00	\$0.00
<u>Semi-Public</u>			
Coin	\$29.16	\$30.16	\$1.00
<u>Usage Sensitive Service – USS:</u>			
<u>Residence</u>			
One-Party	\$8.75	\$10.54	\$ 1.79
<u>Business</u>			
One-Party	\$17.64	\$24.09	\$ 6.45
Key Trunks	\$36.37	\$49.08	\$ 12.71
Trunks	\$26.24	\$ 30.16	\$ 3.92
<u>Semi-Public</u>			
Coin	\$117.64	\$22.17	\$ 4.53

These rates are for base rate customers only and do not include zone charges, charges for supplemental equipment, or the charge for a company-provided telephone, with the exception of semi-public service. These rates also do not include the monthly customer access line charge mandated by the Federal Communications Commission. This charge is currently \$6.00 per month for all residential and single line business customers, and it is higher for business customers with more than one line.

A copy of this ballot is being provided to subscribers in the New Burlington Exchange to determine whether the subscribers are willing to pay the higher local service rates shown above in return for toll-free calling to the Dayton Exchange. The persons to whom this ballot is given should mark the ballot in one of the squares indicated and legibly print or write their name and telephone number(s) in the spaces provided.

Failure to return or mark this ballot will be counted as a vote against the establishment of two-way, nonoptional, flat-rate EAS.

Please return this ballot to:

Trunks	\$26.24	\$ 30.16	\$ 3.92
<u>Semi-Public</u>			
Coin	\$117.64	\$22.17	\$ 4.53

These rates are for base rate customers only and do not include zone charges, charges for supplemental equipment, or the charge for a company-provided telephone, with the exception of semi-public service. These rates also do not include the monthly customer access line charge mandated by the Federal Communications Commission. This charge is currently \$6.00 per month for all residential and single line business customers, and it is higher for business customers with more than one line.

A copy of this ballot is being provided to subscribers in the New Burlington Exchange to determine whether the subscribers are willing to pay the higher local service rates shown above in return for toll-free calling to the Dayton Exchange. The persons to whom this ballot is given should mark the ballot in one of the squares indicated and legibly print or write their name and telephone number(s) in the spaces provided.

Failure to return or mark this ballot will be counted as a vote against the establishment of two-way, nonoptional, flat-rate EAS.

Please return this ballot to:

APPENDIX A
01-2565-TP-PEX

Dear New Burlington Exchange Subscribers:

A petition was filed with the Public Utilities Commission of Ohio, seeking the institution of two-way, flat-rate, extended area service (EAS) between the New Burlington Exchange of Verizon North Inc. and the Dayton Exchange of Ameritech Ohio (Ameritech). The Commission has ordered that the request for two-way, flat-rate EAS between the New Burlington Exchange and the Dayton Exchange be granted if a substantial majority of the New Burlington Exchange subscribers indicate a willingness to pay appropriate rates for the service. If this request is granted, calling between the New Burlington Exchange and the Dayton Exchange would be toll-free, but increases in the monthly rates for basic service would apply to all telephone subscribers in the New Burlington Exchange.

Shown below are the existing monthly rates for residence and business access lines for the New Burlington Exchange. Shown also are the rates that would take effect upon the establishment of toll-free service, along with the difference in the present and proposed rates.

<u>Type and Class of Service</u>	<u>Present Monthly Rate</u>	<u>Proposed Monthly Rate</u>	<u>Amount of Increase</u>
<u>Flat Rate Service</u>			
<u>Residence:</u>			
One-Party	\$14.58	\$15.73	\$ 1.15

These rates also do not include the monthly customer access line charge mandated by the Federal Communications Commission. This charge is currently \$6.00 per month for all residential and single line business customers, and it is higher for business customers with more than one line.

A copy of this ballot is being provided to subscribers in the New Burlington Exchange to determine whether the subscribers are willing to pay the higher local service rates shown above in return for toll-free calling to the Dayton Exchange. The persons to whom this ballot is given should mark the ballot in one of the squares indicated and legibly print or write their name and telephone number(s) in the spaces provided.

Failure to return or mark this ballot will be counted as a vote against the establishment of two-way, nonoptional, flat-rate EAS.

Please return this ballot to:

APPENDIX A
01-2565-TP-PEX

Dear New Burlington Exchange Subscribers:

A petition was filed with the Public Utilities Commission of Ohio, seeking the institution of two-way, flat-rate, extended area service (EAS) between the New Burlington Exchange of Verizon North Inc. and the Dayton Exchange of Ameritech Ohio (Ameritech). The Commission has ordered that the request for two-way, flat-rate EAS between the New Burlington Exchange and the Dayton Exchange be granted if a substantial majority of the New Burlington Exchange subscribers indicate a willingness to pay appropriate rates for the service. If this request is granted, calling between the New Burlington Exchange and the Dayton Exchange would be toll-free, but increases in the monthly rates for basic service would apply to all telephone subscribers in the New Burlington Exchange.

Shown below are the existing monthly rates for residence and business access lines for the New Burlington Exchange. Shown also are the rates that would take effect upon the establishment of toll-free service, along with the difference in the present and proposed rates.

<u>Type and Class of Service</u>	<u>Present Monthly Rate</u>	<u>Proposed Monthly Rate</u>	<u>Amount of Increase</u>
<u>Flat Rate Service</u>			
<u>Residence:</u>			
One-Party	\$14.58	\$15.73	\$ 1.15
<u>Business</u>			
One-Party	\$29.16	\$35.95	\$ 6.79
Key Trunks	\$52.00	\$52.00	\$ 0.00
Trunks	\$39.00	\$39.00	\$ 0.00
<u>Semi-Public</u>			
Coin	\$29.16	\$30.16	\$1.00
<u>Usage Sensitive Service – USS:</u>			
<u>Residence</u>			
One-Party	\$8.75	\$10.54	\$ 1.79
<u>Business</u>			
One-Party	\$17.64	\$24.09	\$ 6.45
Key Trunks	\$36.37	\$49.08	\$ 12.71
Trunks	\$26.24	\$ 30.16	\$ 3.92
<u>Semi-Public</u>			
Coin	\$117.64	\$22.17	\$ 4.53

These rates are for base rate customers only and do not include zone charges, charges for supplemental equipment, or the charge for a company-provided telephone, with the exception of semi-public service. These rates also do not include the monthly customer access line charge mandated by the Federal Communications Commission. This charge is currently \$6.00 per month for all residential and single line business customers, and it is higher for business customers with more than one line.

A copy of this ballot is being provided to subscribers in the New Burlington Exchange to determine whether the subscribers are willing to pay the higher local service rates shown above in return for toll-free calling to the Dayton Exchange. The persons to whom this ballot is given should mark the ballot in one of the squares indicated and legibly print or write their name and telephone number(s) in the spaces provided.

Failure to return or mark this ballot will be counted as a vote against the establishment of two-way, nonoptional, flat-rate EAS.

01-2565-TP-PEX

Dear New Burlington Exchange Subscribers:

A petition was filed with the Public Utilities Commission of Ohio, seeking the institution of two-way, flat-rate, extended area service (EAS) between the New Burlington Exchange of Verizon North Inc. and the Dayton Exchange of Ameritech Ohio (Ameritech). The Commission has ordered that the request for two-way, flat-rate EAS between the New Burlington Exchange and the Dayton Exchange be granted if a substantial majority of the New Burlington Exchange subscribers indicate a willingness to pay appropriate rates for the service. If this request is granted, calling between the New Burlington Exchange and the Dayton Exchange would be toll-free, but increases in the monthly rates for basic service would apply to all telephone subscribers in the New Burlington Exchange.

Shown below are the existing monthly rates for residence and business access lines for the New Burlington Exchange. Shown also are the rates that would take effect upon the establishment of toll-free service, along with the difference in the present and proposed rates.

<u>Type and Class of Service</u>	<u>Present Monthly Rate</u>	<u>Proposed Monthly Rate</u>	<u>Amount of Increase</u>
<u>Flat Rate Service</u>			
<u>Residence:</u>			
One-Party	\$14.58	\$15.73	\$ 1.15
<u>Business</u>			
One-Party	\$29.16	\$35.95	\$ 6.79
Key Trunks	\$52.00	\$52.00	\$ 0.00
Trunks	\$39.00	\$39.00	\$ 0.00
<u>Semi-Public</u>			
Coin	\$29.16	\$30.16	\$1.00
<u>Usage Sensitive Service – USS:</u>			
<u>Residence</u>			
One-Party	\$8.75	\$10.54	\$ 1.79
<u>Business</u>			
One-Party	\$17.64	\$24.09	\$ 6.45
Key Trunks	\$36.37	\$49.08	\$ 12.71
Trunks	\$26.24	\$ 30.16	\$ 3.92
<u>Semi-Public</u>			
Coin	\$117.64	\$22.17	\$ 4.53

These rates are for base rate customers only and do not include zone charges, charges for supplemental equipment, or the charge for a company-provided telephone, with the exception of semi-public service. These rates also do not include the monthly customer access line charge mandated by the Federal Communications Commission. This charge is currently \$6.00 per month for all residential and single line business customers, and it is higher for business customers with more than one line.

A copy of this ballot is being provided to subscribers in the New Burlington Exchange to determine whether the subscribers are willing to pay the higher local service rates shown above in return for toll-free calling to the Dayton Exchange. The persons to whom this ballot is given should mark the ballot in one of the squares indicated and legibly print or write their name and telephone number(s) in the spaces provided.

Failure to return or mark this ballot will be counted as a vote against the establishment of two-way, nonoptional, flat-rate EAS.

Please return this ballot to:

BALLOT

Case No. 01-2565-TP-PEX
Return by _____

- I am willing to pay the increased local service rates shown above in return for the establishment of two-way, flat-rate extended area service between the New Burlington Exchange and the Dayton Exchange.
- I am not willing to pay the increased local service rates shown above in return for the establishment of two-way, flat-rate extended area service between the New Burlington Exchange and the Dayton Exchange.

APPENDIX A
01-2565-TP-PEX

Dear New Burlington Exchange Subscribers:

A petition was filed with the Public Utilities Commission of Ohio, seeking the institution of two-way, flat-rate, extended area service (EAS) between the New Burlington Exchange of Verizon North Inc. and the Dayton Exchange of Ameritech Ohio (Ameritech). The Commission has ordered that the request for two-way, flat-rate EAS between the New Burlington Exchange and the Dayton Exchange be granted if a substantial majority of the New Burlington Exchange subscribers indicate a willingness to pay appropriate rates for the service. If this request is granted, calling between the New Burlington Exchange and the Dayton Exchange would be toll-free, but increases in the monthly rates for basic service would apply to all telephone subscribers in the New Burlington Exchange.

Shown below are the existing monthly rates for residence and business access lines for the New Burlington Exchange. Shown also are the rates that would take effect upon the establishment of toll-free service, along with the difference in the present and proposed rates.

<u>Type and Class of Service</u>	<u>Present Monthly Rate</u>	<u>Proposed Monthly Rate</u>	<u>Amount of Increase</u>
<u>Flat Rate Service</u>			
<u>Residence:</u>			
One-Party	\$14.58	\$15.73	\$ 1.15
<u>Business</u>			
One-Party	\$29.16	\$35.95	\$ 6.79
Key Trunks	\$52.00	\$52.00	\$ 0.00
Trunks	\$39.00	\$39.00	\$ 0.00
<u>Semi-Public</u>			
Coin	\$29.16	\$30.16	\$1.00
<u>Usage Sensitive Service – USS:</u>			
<u>Residence</u>			
One-Party	\$8.75	\$10.54	\$ 1.79
<u>Business</u>			
One-Party	\$17.64	\$24.09	\$ 6.45
Key Trunks	\$36.37	\$49.08	\$ 12.71
Trunks	\$26.24	\$ 30.16	\$ 3.92
<u>Semi-Public</u>			
Coin	\$117.64	\$22.17	\$ 4.53

These rates are for base rate customers only and do not include zone charges, charges for supplemental equipment, or the charge for a company-provided telephone, with the exception of semi-public service. These rates also do not include the monthly customer access line charge mandated by the Federal Communications Commission. This charge is currently \$6.00 per month for all residential and single line business customers, and it is higher for business customers with more than one line.

A copy of this ballot is being provided to subscribers in the New Burlington Exchange to determine whether the subscribers are willing to pay the higher local service rates shown above in return for toll-free calling to the Dayton Exchange. The persons to whom this ballot is given should mark the ballot in one of the squares indicated and legibly print or write their name and telephone number(s) in the spaces provided.

Failure to return or mark this ballot will be counted as a vote against the establishment of two-way, nonoptional, flat-rate EAS.

Please return this ballot to:

<u>Semi-Public</u>			
Coin	\$117.64	\$22.17	\$ 4.53

These rates are for base rate customers only and do not include zone charges, charges for supplemental equipment, or the charge for a company-provided telephone, with the exception of semi-public service. These rates also do not include the monthly customer access line charge mandated by the Federal Communications Commission. This charge is currently \$6.00 per month for all residential and single line business customers, and it is higher for business customers with more than one line.

A copy of this ballot is being provided to subscribers in the New Burlington Exchange to determine whether the subscribers are willing to pay the higher local service rates shown above in return for toll-free calling to the Dayton Exchange. The persons to whom this ballot is given should mark the ballot in one of the squares indicated and legibly print or write their name and telephone number(s) in the spaces provided.

Failure to return or mark this ballot will be counted as a vote against the establishment of two-way, nonoptional, flat-rate EAS.

Please return this ballot to:

BALLOT

Case No. 01-2565-TP-PEX
Return by _____

- I am willing to pay the increased local service rates shown above in return for the establishment of two-way, flat-rate extended area service between the New Burlington Exchange and the Dayton Exchange.
- I am not willing to pay the increased local service rates shown above in return for the establishment of two-way, flat-rate extended area service between the New Burlington Exchange and the Dayton Exchange.

APPENDIX A
01-2565-TP-PEX

Dear New Burlington Exchange Subscribers:

A petition was filed with the Public Utilities Commission of Ohio, seeking the institution of two-way, flat-rate, extended area service (EAS) between the New Burlington Exchange of Verizon North Inc. and the Dayton Exchange of Ameritech Ohio (Ameritech). The Commission has ordered that the request for two-way, flat-rate EAS between the New Burlington Exchange and the Dayton Exchange be granted if a substantial majority of the New Burlington Exchange subscribers indicate a willingness to pay appropriate rates for the service. If this request is granted, calling between the New Burlington Exchange and the Dayton Exchange would be toll-free, but increases in the monthly rates for basic service would apply to all telephone subscribers in the New Burlington Exchange.

Shown below are the existing monthly rates for residence and business access lines for the New Burlington Exchange. Shown also are the rates that would take effect upon the establishment of toll-free service, along with the difference in the present and proposed rates.

<u>Type and Class of Service</u>	<u>Present Monthly Rate</u>	<u>Proposed Monthly Rate</u>	<u>Amount of Increase</u>
<u>Flat Rate Service</u>			
<u>Residence:</u>

A petition was filed with the Public Utilities Commission of Ohio, seeking the institution of two-way, flat-rate, extended area service (EAS) between the New Burlington Exchange of Verizon North Inc. and the Dayton Exchange of Ameritech Ohio (Ameritech). The Commission has ordered that the request for two-way, flat-rate EAS between the New Burlington Exchange and the Dayton Exchange be granted if a substantial majority of the New Burlington Exchange subscribers indicate a willingness to pay appropriate rates for the service. If this request is granted, calling between the New Burlington Exchange and the Dayton Exchange would be toll-free, but increases in the monthly rates for basic service would apply to all telephone subscribers in the New Burlington Exchange.

Shown below are the existing monthly rates for residence and business access lines for the New Burlington Exchange. Shown also are the rates that would take effect upon the establishment of toll-free service, along with the difference in the present and proposed rates.

<u>Type and Class of Service</u>	<u>Present Monthly Rate</u>	<u>Proposed Monthly Rate</u>	<u>Amount of Increase</u>
<u>Flat Rate Service</u>			
<u>Residence:</u>			
One-Party	\$14.58	\$15.73	\$ 1.15
<u>Business</u>			
One-Party	\$29.16	\$35.95	\$ 6.79
Key Trunks	\$52.00	\$52.00	\$ 0.00
Trunks	\$39.00	\$39.00	\$ 0.00
<u>Semi-Public</u>			
Coin	\$29.16	\$30.16	\$1.00
<u>Usage Sensitive Service – USS:</u>			
<u>Residence</u>			
One-Party	\$8.75	\$10.54	\$ 1.79
<u>Business</u>			
One-Party	\$17.64	\$24.09	\$ 6.45
Key Trunks	\$36.37	\$49.08	\$ 12.71
Trunks	\$26.24	\$ 30.16	\$ 3.92
<u>Semi-Public</u>			
Coin	\$117.64	\$22.17	\$ 4.53

These rates are for base rate customers only and do not include zone charges, charges for supplemental equipment, or the charge for a company-provided telephone, with the exception of semi-public service. These rates also do not include the monthly customer access line charge mandated by the Federal Communications Commission. This charge is currently \$6.00 per month for all residential and single line business customers, and it is higher for business customers with more than one line.

A copy of this ballot is being provided to subscribers in the New Burlington Exchange to determine whether the subscribers are willing to pay the higher local service rates shown above in return for toll-free calling to the Dayton Exchange. The persons to whom this ballot is given should mark the ballot in one of the squares indicated and legibly print or write their name and telephone number(s) in the spaces provided.

Failure to return or mark this ballot will be counted as a vote against the establishment of two-way, nonoptional, flat-rate EAS.

Please return this ballot to:

Trunks	\$26.24	\$ 30.16	\$ 3.92
<u>Semi-Public</u>			
Coin	\$117.64	\$22.17	\$ 4.53

These rates are for base rate customers only and do not include zone charges, charges for supplemental equipment, or the charge for a company-provided telephone, with the exception of semi-public service. These rates also do not include the monthly customer access line charge mandated by the Federal Communications Commission. This charge is currently \$6.00 per month for all residential and single line business customers, and it is higher for business customers with more than one line.

A copy of this ballot is being provided to subscribers in the New Burlington Exchange to determine whether the subscribers are willing to pay the higher local service rates shown above in return for toll-free calling to the Dayton Exchange. The persons to whom this ballot is given should mark the ballot in one of the squares indicated and legibly print or write their name and telephone number(s) in the spaces provided.

Failure to return or mark this ballot will be counted as a vote against the establishment of two-way, nonoptional, flat-rate EAS.

Please return this ballot to:

APPENDIX A
01-2565-TP-PEX

Dear New Burlington Exchange Subscribers:

A petition was filed with the Public Utilities Commission of Ohio, seeking the institution of two-way, flat-rate, extended area service (EAS) between the New Burlington Exchange of Verizon North Inc. and the Dayton Exchange of Ameritech Ohio (Ameritech). The Commission has ordered that the request for two-way, flat-rate EAS between the New Burlington Exchange and the Dayton Exchange be granted if a substantial majority of the New Burlington Exchange subscribers indicate a willingness to pay appropriate rates for the service. If this request is granted, calling between the New Burlington Exchange and the Dayton Exchange would be toll-free, but increases in the monthly rates for basic service would apply to all telephone subscribers in the New Burlington Exchange.

Shown below are the existing monthly rates for residence and business access lines for the New Burlington Exchange. Shown also are the rates that would take effect upon the establishment of toll-free service, along with the difference in the present and proposed rates.

<u>Type and Class of Service</u>	<u>Present Monthly Rate</u>	<u>Proposed Monthly Rate</u>	<u>Amount of Increase</u>
<u>Flat Rate Service</u>			
<u>Residence:</u>
