

Notes: Project area boundaries are provided by applicants. Case and construction status is determined by the case filings. The nameplate capacity shown is the maximum capacity that could be built based on the number of approved turbines and the highest nameplate capacity of the approved turbine models. Map produced on September 28, 2018. Prepared by: Adam Bargar

| Operational Wind Facilities    |  |                     | Potential Wind Facilities (Approved, Pending and Pre-application)  |                    |            |              |
|--------------------------------|--|---------------------|--|--------------------|------------|--------------|
| Operational Megawatts (MW):    |  | 669.8               | Potential Megawatts (MW):  |                    | 1,611.8    |              |
| Operational Turbines:          |  | 327                 | Potential Turbines:  |                    | 717        |              |
| Operational Wind Facilities    |  |                     |  |                    |            |              |
